

“RINGING IN OUR HEARTS & MINDS” A SHORT COURSE ON MODEL COHERENCY

DATE: 29TH MAY 2026 ; TIME: 3:00 PM – 6:00 PM IST ; VENUE: ZOOM ONLINE

Model Coherency Refresher: An
SRV-Based Framework for Designing
and Evaluating Services

“Ringing in your hearts and
minds..... Who are the
people, and what do they
need?”

“The concept of model coherency is one of the themes of and for Social Role Valorization (SRV) theory. Yet another fabulous “gem” of SRV, this concept is so helpful when both designing and evaluating a service. How well a service “hangs together” in every way is the big idea behind Model Coherency. This workshop is designed for those who have some training in Social Role Valorization, and those who have also done deep SRV study. Be prepared for hands-on experiential learning, as we take the ideas and put them to work together..”
