

ON A ROLE: PRACTICAL ASPECTS OF ROLE THEORY

30TH JANUARY 2026 | 4:00 PM-7:00 PM (IST) | ZOOM ONLINE

An "SRV GEM"

For those with some knowledge of Social Role Valorization principles, and who are hungry for how to help people move into valued roles, this workshop is for you.

How do you identify roles people might be interested in?

Once you have a role in mind, how might you help a person enter that role?

How can adaptations and accommodations be used which will enable people with significant competency impairments to be successful?

We will discuss some of the practical ways that we can walk alongside people with disabilities as they successfully move into valued roles.

Pre-requisites: This workshop is open to those with some exposure to Social Role Valorization through at least a half day workshop on the subject. SRV intensive course graduates are welcomed, but there will be some repetition.
