

TOWARDS A BETTER LIFE

*An Introduction to Social Role Valorisation (SRV):
A framework relevant to the lives of marginalised people*

2 days face to face Must attend all both days

About this Workshop

This workshop explores how getting valued roles can lead to changed societal perceptions and strengthen the likelihood that people with a devalued status will get a better life.

The core themes and principles of SRV will be explored through presentations, exercises and discussions.

The SRV framework will help give meaning and depth to opportunities under NDIS and Consumer Directed Care. It underpins the application of Person-Centred Approaches and informs questions of Choice and Control.

Completion allows entry to the SRV practicum, PASSING.
